

# Matt Hill

Matt Hill began his journey in the world of electronic music over 20 years ago producing and releasing his first vinyl E.P. under the moniker 'Galaxy Talk'. As time went on, like in many artists' cases, Hill's style of music has progressed and been refined to something different now but much more himself. From various clubs in Southern California to the deep desert parties of the Mojave, Matt has been establishing himself as a prominent DJ and producer in the house and techno scene. Of the many collectives/labels in Southern California, Hill is co-founder and curator of Love Underground and Like.Minded. Groovy, deep, and minimal vibes infiltrate the soundscapes of Hill's sets. His goal is for the listeners to resonate with their experience of his perspective of M.U.S.I.C. (Momentum Unifying Spiritual Inward Consciousness). In August 2019, his single 'Think 4 Yourself' came out on Soluble Recordings Ibiza, with a remix by Soluble founder Tomas Bollo. Recently, he released 'Baghdad' with master saxophonist and producer/DJ Itai Isenberg on the label Camel Riders based out of Tel Aviv with remixes by world-renowned artists Laroz, Amine K, and Alvaro Suarez.
